

# SAVE THE DATE!

**Join us on September 19, 2024 9 am – 2 pm at Bemidji State University for this FREE OPPORTUNITY!**

**[Register NOW!](#)**

The [Minnesota STEM Ecosystem](#) and [STEM Ecosystems](#) powered by [TIES TEACH](#), in partnership with [aiEDU](#), is teaming up with help from **Google** to bring information on how artificial education can be leveraged to impact education.

This **no-cost AI Summit** is designed to:

- Promote Understanding: Facilitate sessions and discussions to enhance educators' comprehension of artificial intelligence and its applications in the educational landscape.
- Introduce AI Skills for the Classroom: **Employ demonstrations and interactive activities** to familiarize the entire group with the concept of integrating foundational AI into the classroom environment.
- Foster Cross-disciplinary Connections: **Foster interdisciplinary collaboration by showcasing how AI can be seamlessly integrated into various subjects**, encouraging educators to explore cross disciplinary approaches.
- Build Community: Address concerns related to **AI's impact on diverse communities and advocate for strategies to ensure equitable access and inclusion in AI education**, minimizing disparities.
- Access Resources: **Free curricula and resources will be available to all participants**, ensuring you leave the summit with tangible materials that can be easily implemented in schools, promoting widespread adoption of AI in education.

**This Summit is open to ALL Educators: secondary, post-secondary, after-school learning programs and youth employers! Together we can build the cross-sector foundation to serve our learners!**

**[RESERVE YOUR SPOT TODAY!](#)** A calendar hold will be sent to you, along with additional information about the event.
