

Build It Expo

HANDS-ON CONSTRUCTION FUN

PARTNERSHIP OPPORTUNITIES

Saturday, April 11, 2026 | The Works Museum

Build It Expo highlights pathways into construction – from architecture and carpentry to engineering and skilled trades. Kids ages 5-12 and their families explore construction and building careers through hands-on STEM activities, live demos, and role model conversations with engineers and skilled trades professionals.

WHY PARTNER?

- Inspire the next generation of builders, engineers, and skilled trades professionals
- Connect directly with families and students in a fun, interactive setting
- Showcase your company's commitment to STEM education, workforce development, and equity in the trades

CONSTRUCTION + THE WORKS MUSEUM

At The Works Museum, hands-on design-and-build experiences help young people see themselves as creators, builders, and problem-solvers.

Career interests begin forming in elementary school.

By introducing construction skills and concepts—measuring, materials, structural design, teamwork— at an early age, we help students build awareness and confidence before they choose their pathway.

THANKS TO OUR PARTNERS

Build It Expo is a brand-new family event at The Works Museum that brings hands-on construction and skilled trades experiences to life. Over the years, industry partners have generously shared their real-world expertise, career pathways, and interactive demonstrations with our visitors, including:

EVENT AT THE WORKS MUSEUM:

YOUR SUPPORT FUELS ACCESS

Funds raised through Build It Expo! help to remove barriers so students can access hands-on STEM experiences through The Works Museum’s Engineering for All and Gateway programs - empowering students to build skills, explore careers, and imagine what’s possible.
